Supply Chain Visibility

Document and file tracking

IT Asset Tracking

Retail Inventory Control

Construction Equipment Tracking

BENEFITS/ADVANTAGES

☑ Asset Tagging Solution can track a wide range of assets, including equipment, inventory, tools, vehicles, and even personnel.

☑ RFID tags are attached to assets, and RFID readers or antennas capture information from the tags, updating the database.

☑ Benefits include improved accuracy, real-time tracking, reduced labour costs, enhanced security, and faster inventory audits.

☑ Asset Tagging Solution can deter theft, enhance asset recovery, and maintain a detailed audit trail.

☑ This solution offer integration options with common inventory management and ERP systems for seamless data sharing.

☑ It generates diverse reports in various formats such as previews, PDFs, XLS, and more.

ALERTS/NOTIFICATIONS

e-Mail integration
Verification and notifications regarding all kind of transactions.

SMS integration
